Art Unit: 1711

1. Claims 1-4, 7-12, 29, and 32 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Within the last three lines of claim 1, applicants have referred to "all solvent(s) employed in step (D)"; however, this language is confusing, because it is unclear that the "employed solvents" are limited to or refer to the solvents set forth within step (A). In other words, it is unclear what significance is carried by the "employed" language. The solvents present within step (D) result from step (A); however, the "employed" language suggests that additional solvents are specifically added, utilized, or employed within step (D).

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
